LOAD CARRIER

Global packaging competence.
Customized solutions.

Packaging for engines
Universal warehousing solution
CONSTRUCTIONAL FEATURES

» A four-flute RhinoPlate® ring is integrated into the container which guarantees the required stability
» Corrugated cardboard padding contains punch outs for the support timbers
» Packaging can be used universally for different engine types
» Packaging variety is reduced

CONSUMER BENEFITS

» Larger circulation runs thanks to universal usability
» Compact delivery possible
» Ability to stack 1+ 4 reduces storage volumes

ENVIRONMENTAL ASPECTS/SUSTAINABILITY

» Corrugated cardboard can be easily recycled
» Universal usability means less material is used in relation to individual packaging solutions
» Rationalisation of internal company logistics
